

Main features:

- Kilogram (kg) and pound (lb, not for EC type approval version) weighing units
- LCD 6 digits; 25.4 x 10 mm (W x H); height 25.4mm; LED backlightLarge LCD (digit height 25.4mm) display with LED backlight
- Auto zero tracking; Animal scale function; Data accumulation function
- Auto power off function and low power indication
- Multi-range and multi-interval setting available
- Dual range mode available
- Environmental filter setting for better performance
- High resolution switch function key to display 10 times divisions
- Power Source: adapter: Input 100 ~ 240V AC 50 ~ 60 Hz; Output 12V / 1000 mA
- Available in connecting with up to four 350-ohm load cells
- Capable of connecting with 6-wire load cell(s)
- Operating Temperature: 0°C ~ 40°C (32°F ~ 104°F)
- Certification: OIML
- Options:
 - RS232/485 serial interface (switched by jumper) with RTC function
 - Rechargeable battery type (with 5pcs of DC 6V Ni-MH batteries in serial connection)
 - Dry battery type (using 5pcs of AA dry batteries)
